Dear ,

Thank you for your assistance with the surveys we have carried out so far, your help was much appreciated. Unfortunately we have to ask for your help again but we are not asking you to let someone into your home this time.

Over the coming weeks we will need to carry out further surveys. These include:

- A tree survey – to assess the type of trees on site and whether they are healthy
- A geo physical survey – to establish where the drains, electricity cables and telephone cables are laid
- A ground investigation – to establish the type of soil on site and what are the conditions below the grounds surface.

The first one that we would like to carry out on the **19th August** is the tree survey.

Our consultant, Callum Andrew from Focus Ecology, would like to carry out the survey from 10:30am onwards on Monday 19th August. Once again he will need access to your front and rear garden. I would be grateful if you could make arrangements for the surveyors to access your rear garden on this day.

If there is a locked gate to your rear garden that you would prefer not to leave unlocked for access and you are unavailable then I would really appreciate it if you could arrange for a family member, friend or neighbour to be at the property to enable us to gain access. I appreciate these dates may cause you inconvenience so if you are only available at a certain time on the 19th please contact me to discuss how I may help.

Once again thank you for your help.

Yours sincerely,

Claire Thomas
