Dear ,

Southlands, Tytherington

It was lovely to meet you in March when we visited you to discuss your thoughts on the Initial Demolition Notice you were served in 2013.

We have carried out some further investigations and have made some progress. It is possible for us to apply for a change to the Village Green so that we could obtain access over the green to the area where your homes are. This will still be dependent on South Gloucestershire District Council agreeing for us to cross the green and obtaining a change to the Village Green classification.

What happens next?

I am sure you are keen to understand what happens next .Unfortunately this is quite a complicated issue and we are working away to come up with a final proposal. We still have some work to do, consultation with the planners, agreeing the way forward with South Gloucestershire District Council etc. So we will be in touch as soon as possible.

I look forward to meeting you again soon, and if you need to contact me my contact details are at the bottom of this letter.

Yours sincerely,

James Trotter
