Dear

Ground Investigation Survey – Stockwells – week beginning 26 May

I hope you are keeping well at this time.

We will be carrying out further survey works on Stockwells for two days during the week beginning 26 May.

This survey is a ground investigation and it will take place in the front and rear gardens of empty properties only. The company carrying out this work will be using a mini rig to bore holes into the ground, which will then be refilled. The purpose of the survey is to establish the type of soil and what sort of foundations will be required for the proposed new homes.

The contractor we are using is GRP and they will be on Stockwells between 8am and 5pm and will be on site for two consecutive days. At the time of writing, we are unable to confirm which day during week beginning 26 May the works will begin.

The road will be fully accessible during the surveys and our contractor will ensure that they comply with all government guidelines around hygiene and social distancing while carrying out the work.

I would ask that you keep any children and pets away from the empty gardens.

Thank you for your cooperation and if you have any queries, please do not hesitate to contact me as I am happy to answer any questions you may have.

Yours sincerely,

Louise Wooldridge
Project manager
