Dear

Clifton Campville Regeneration

I wanted to let you know that we will be carrying out further investigative works on Main Street and Lullingotn Road on the 15th and 16th June 2017.

We will be carrying out a ground investigation. The company carrying out this investigation will be using a mini rig to bore holes into the ground, these will then be refilled. They will be carrying out the work in the front and rear gardens that Bromford own, once again they will also be investigating the grassed area in front of no's 22 and 24 Levett Road. I would appreciate it if you could ensure that you or your children do not access any of these areas on these days.

The consultants we are using from Ground Investigation and Piling limited. They will be on site for two days. Thank you in advance for your cooperation.

Yours sincerely

Claire Thomas
Regeneration Manager
